In addition, when we get to this age, we find it quite useful for students to have a personal laptop for research and word processing purposes. Five day students will also have an elective Technology class. If this is something you are able to provide, we will have our technology experts on campus at the Parent Information evening to help set-up protections and fire-walls. If this is not something you can provide at this time, we have a set of classroom laptops that can be used.
